F R I

Labobratori joins **labor**, **obra**, and **obratori**.  
It is a brand that was born with the intention  
of highlighting the virtues of the craft (labor),  
unique (obra), and workspace (obratori).

We understand the book as a design object,  
functional and artistic, almost sculptural. The  
workplace is a laboratory where we work,  
observe and research.
